## About Resonance

In Physics, 'Resonance' is the tendency of a system to oscillate with larger amplitudes at some frequencies. These frequencies are known as the system's resonant frequencies. At these frequencies, even small forces can produce large oscillations and create extraordinary impact. Mr. R. K. Verma, a Physics teacher, chose to name his edupreneurial venture as 'Resonance'. Resonance came into being on 11th April 2001 at Kota (Rajasthan) as the preparatory institute for IIT-JEE (Now JEE - Advanced), the toughest entrance examination for admission in coveted engineering institutes of India i.e. IITs. The institute was named 'Resonance' with the vision to impart education Innovatively and Effectively where minimum efforts produce extraordinary results and thus the phenomenon of Resonance is achieved.

If you are looking for a promising coaching centre for IIT-JEE/ NEET coaching, here's the winner! Resonance has successfully placed 46,000+ students in IITs, 2,30,000+ students in NITs since 2002 and 16,500+ students in top medical colleges across India since 2012.

With over 20 years of expertise in training aspirants for competitive exams, PAN India presence across 20+ states with 60+ centres and an expert team of 1000+ faculty, Resonance brings the promise of a brighter future to the students of Hyderabad.

### RESONANCE KOTA'S TEACHING FORMULA:

Resonance is among India's TOP 5 coaching institutes and has rightfully gained this rank and reputation through successful implementations of their unique teaching methodologies that focus on a student's speed and accuracy at solving subject papers. The highly qualified research and development team of 100+ members consistently enhance study material in per the latest exam standards, ensure daily practice sessions and offer a special student mentorship program, thereby creating the institute's most sought after success formula. Resonance builds students' confidence and subject understanding through a 3-step procedure.

**Concept building:** The institute firmly believes that 'stress and clarity in thought' simply cannot exist in the same mind. A student can only be stressed when they experience confusion or lack of clarity, whether it is a subject matter or other important decisions.

With every stride, we move towards helping students realize their IIT or Doctor dreams. We are extremely proud of our students for the ranks they have achieved this year, especially considering the impending stress of the academics. It is a moment of joy and pride for us to witness the results of the hard work the students and faculty put in each day.

- Purnachandra Rao

Herein, they ensure the students focus on understanding subjects through concept building classes and daily doubt clearing sessions. **Testing:** Mock tests are an effective method to measure a student's current success rate and help them improve the same. Resonance conducts daily and weekly practice tests to familiarize students with exam patterns and consistently improves their speed at solving papers. **Practice Once,** the student is able to learn

try his/her own areas of improvement through the mock tests, they go back to working on the necessary areas to address accuracy issues.

**SUCCESS AT HYDERABAD CENTRES:** Resonance Hyderabad is currently located in 4 locations and encompasses across Hyderabad in Madhapur, Tarameta, West Marredupally and Kukatpally with plans to expand further. They offer a day scholar program and hostel facilities for girls and boys, with premier infrastructure and transport facilities. Every student's approach to preparation is unique. To cater to all kinds of bright minds, Resonance Hyderabad provides a range of course structures from 2 year full-fledged courses, a one year intensive program and Fast Track courses in IIT-JEE and NEET. In 2020, Resonance Hyderabad has seen an impressive 80% success rate in JEE (main). The institute focuses on Kota's success formula to train aspirants. However, their man-

### RESONITES SPEAK

Being born and raised in Hyderabad, I always believed getting coached by top mentors and teachers from coaching institutes at Kota would help me achieve my goal of becoming an engineer. But moving to Kota was not an option for me, since I wanted to stay close to family to be able to prepare well. I was extremely happy when Resonance brought its coaching centres to Hyderabad and quickly made a decision to join them for my JEE coaching. Thanks to Resonance Hyderabad, I am now studying in IIT-Kharagpur.

- N. Pragna, Hyderabad.

As much fun as it is to grow up in a serene town like Banswada, it came with its own constraints. Receiving top class training is of utmost importance and a time bound decision to be made if you wish to become a Doctor. I know this since a young age and hence made a decision to move to Hyderabad immediately after my schooling to pursue my dreams. I will be ever grateful to Resonance Hyderabad for training me to secure my placement at Kakatiya medical college, Warangal.

- Anand, Banswada

Resonance Hyderabad has also introduced some of their own training and motivational techniques including:

- Webinars with state markers.
- Live interaction with IIT-JEE and medical students of Resonance.
- Online and offline classes.
- Motivational interaction sessions with the faculty and peers.
